Empathy Map

The empathy map helps understand the user's perspective by identifying what they say, think, do and feel while trying to evaluate their conceptual understanding. These insights guided the development of an AI-powered solution focused on improving learning outcomes.

SAYS

- I am finding it difficult to repay my loans.
- I need a better way to manage my debts.
- I wish I had personalized financial guidance.
- I want to negotiate a lower settlement amount.

THINKS

- How can I become debt-free?
- Will the lender accept my settlement request?
- Can AI help me choose the best repayment strategy?
- I need a clear picture of my financial health.

PERSONA NAME

Debt-Burdened Individual
(Borrower / Loan Holder)

DOES

- Tracks loan balances and EMIs.
- Reviews monthly income and expenses.
- Searches online for debt relief solutions.
- Uses AI recommendations before contacting lenders.

FEELS

- Worried about increasing debt.
- Stressed due to multiple loan repayments.
- Hopeful for a fair settlement plan.
- More confident after receiving AI-based financial guidance.
