Dear Sir/Madam,

I am writing to you regarding my loan account with your organization. Due to financial hardship, I am unable to continue with the current repayments. I request you to consider my settlement proposal of ₹1,40,000 as a one-time settlement towards account closure.

Thank you for your consideration.

Sincerely,

Demo User

6. CHALLENGES & RESOLUTIONS

Challenge	Impact	Resolution
API rate limits for AI service	Delayed response	Implemented request queue & retry logic
Large audio file processing	High memory usage	Optimized audio chunk processing
Payment data validation	Inconsistent records	Added strict validation & error handling
Cross-browser UI issues	Layout breakage	Applied responsive design & testing

5. KEY HIGHLIGHTS

-  All major modules are working as expected.
-  AI analysis and recommendations are accurate.
-  Negotiation letters are generated successfully.
-  Reports are downloadable in PDF format.
-  Application is stable and responsive.

7. CONCLUSION

The AI Debt Relief Platform has been successfully demonstrated with all core functionalities working as expected. The system provides users with intelligent debt analysis, personalized relief recommendations, and AI-powered negotiation assistance, ensuring a seamless experience in managing and resolving debts.

The application is ready for further testing and production deployment.
