	Project Name	AI Debt Relief Platform
	Maximum Marks	1 Mark

Project Demo Planning

This document outlines the complete demonstration plan for the AI Debt Relief Platform. The demonstration is organized to present the problem statement, solution overview, live system execution, feature demonstration, report generation, and final discussion in a clear and structured manner.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction	Explain the problem statement, objectives and project motivation.	2	Self
2	System Overview	Present the system architecture, workflow and technology stack.	3	Self
3	Live Demonstration	Show the working of the AI Debt Relief Platform with real-time execution.	5	Self
4	Report Generation	Generate and download debt analysis report and repayment plan.	2	Self
5	Project Features	Explain key features such as AI analysis, repayment planner, alerts and dashboard.	3	Self
6	Questions & Answers	Answer evaluator questions and conclude the presentation.	3	Self

Demo Flow Summary

Step	Activity	Notes
1	Introduction & Problem Statement	Introduce the project and explain the motivation behind the solution.
2	Solution Overview	Describe system architecture, modules and technologies used.
3	Live Feature Demonstration	Show platform workflow, AI prediction, dashboard and report generation.
4	Q&A Session	Clarify questions, discuss future enhancements and conclude the demonstration.

Demo Flow Summary

Phase	Planned Feature / Enhancement	Target Timeline	Expected Impact
Phase 1	Cloud Deployment using AWS / Streamlit Cloud	1 Month	Online accessibility for users anytime, anywhere.
Phase 2	Database Integration (PostgreSQL / Firebase)	2 Months	Reliable and scalable data management.
Phase 3	Advanced AI-based Debt Analysis & Payment Prediction	4 Months	Improved prediction accuracy and personalized recommendations.
Phase 4	Mobile Application & Multi-language Support	6 Months	Greater user accessibility and wider adoption.
