

Team Involvement in Demonstration

AI Debt Relief Platform

	Date	11 July 2026
	Team ID	XXXXXX
	Project Name	AI Debt Relief Platform
	Maximum Marks	1 Mark

Team Involvement in Demonstration

This document records the participation during the project demonstration. Since the AI Debt Relief Platform was developed individually, all planning, implementation, testing, documentation and presentation activities were performed by a single team member.

S.No	Team Member Name	Role in Demo	Section Presented	Contribution Summary	Participated
1	Jathin Maddineni	Project Developer & Presenter	Complete Project Demonstration	Introduced the project, presented the AI Debt Relief platform, demonstrated all modules including prediction, recommendations, dashboard and report generation, and answered reviewer questions.	Active

Team Coordination Notes

Team Leader / Coordinator	Jathin Maddineni
Overall Coordination Rating (1-5)	5 / 5
Any Issues During Demo	No major issues encountered during the demonstration.
How Issues Were Resolved	Minor configuration issues were verified and resolved before the demonstration through repeated testing.

Scalability & Future Plan

S.No	Scalability Aspect	Current State	Proposed Upgrade / Solution
1	User Load	Single-user Streamlit application.	Deploy on cloud with multi-user support and load balancing.
2	Data Storage	Local JSON files.	Use PostgreSQL or Firebase for centralized and secure data storage.
3	Performance	CPU-based processing.	Optimize AI inference and enable GPU acceleration for faster predictions.
4	Security	Basic local authentication.	Add user authentication, encrypted storage and role-based access control.

Future Roadmap

Phase	Planned Feature / Enhancement	Target Timeline	Expected Impact
Phase 1	Cloud Deployment using AWS / Streamlit Cloud	1 Month	Online accessibility for users anytime, anywhere.
Phase 2	Database Integration (PostgreSQL / Firebase)	2 Months	Reliable and scalable data management.
Phase 3	Advanced AI-based Debt Analysis & Repayment Prediction	4 Months	Improved prediction accuracy and personalized recommendations.
Phase 4	Mobile Application & Multi-language Support	6 Months	Greater user accessibility and wider adoption.
